

The Student's Workbook

This workbook has been designed by your teacher as the way to advance from a beginning to an intermediate student of your instrument. Each section has been crafted to be the next step in the performance of our instrument based on your teacher's experience as an educator and an artist. The *only* description of each step will come from your individual lessons. Your progress is based on your interaction with the teacher in your lessons: there is no timeline on your advancement through the sections of this workbook. Students should be practicing at home as prescribed by the teacher in the "Welcome" letter from the packet that you've received. After working through all twenty sections of the workbook, students will be given choices on the next step to proceed to an even higher level of performance. Thank you for the opportunity to help you learn a fun and rewarding instrument!
